Change table checklist

- ✓ Ensure the table is stable and solid
- ✓ If it's on wheels, make sure it has an effective locking system
- ✓ Look for tables that offer roll-off protection (raised ends and sides)
- ✓ If you're buying second-hand, consider purchasing a new mat
- ✓ Look for optimum storage
- ✓ Check the height is neither too low or too high. A table that is too low can cause strain on your back, especially after repetitive use.
