IMPORTANT NOTICE FOR COT OWNERS

Recommended Mattress Size: This cot has been manufactured for use with a mattress which measures 680mm wide x 1300mm long x 150mm thick maximum. The width and length are specified because it is important that the gaps between the mattress base and the sides and ends of the cot will not exceed 20mm. This is to minimize the risk of the child's limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm, to minimize the risk of the child climbing or falling out of the cot.

The below notices are affixed to all TouchWood Cots. It is important that the warnings be observed. Should any problems arise, please quote the Batch Number of your cot.
